Experience

Front End Developer @ Four of them LLC

August 2022 – Present // Zaprešić, Croatia // Remote

- Worked on our flagship platform reconstruction from scratch
- Led the development of a custom component library
- Developed custom admin applications for our partners
- Used Nuxt 3, Vue, TypeScript, UnoCSS, Quasar, Storybook, Vite, GraphQL, Strapi

4ofthem.eu

Junior Front End Developer @ Three of them Ltd.

August 2021 – July 2022 // Zaprešić, Croatia // Remote

- Maintained the flagship IhreApotheken platform – the biggest e-commerce platform for pharmacies in Germany
- Developed and shipped an accompanying order tracking application for pharmacy suppliers
- Built and maintained user-facing side of the COVID-19 Vaccine Booking System
- Led the development of a custom component library for the platform rebuild
- Implemented a custom TypeScript API endpoints library
- Used Vue, TypeScript, JavaScript, Sass, Tailwind CSS, Storybook, Docker

3ofthem.eu ihreapotheken.de

Junior Full Stack Developer @ Infokarta d.o.o.

May 2021 – July 2021 // Split, Croatia // Remote

- Collaborated with a small team to develop a geographic information system (GIS) based web application for several local governments in the Dalmatian Region
- Used Nuxt, Vue, Vuex, Sass, Bootstrap, Mapbox, Node, Express, PostgreSQL

Projects

Fare @ TVZ

August 2022 – January 2023

Application for tracking personal finances and attaining financial independence.

- Developed as a college final-year project
- Built with Nuxt 3, Vue, TypeScript, TanStack Query, UnoCSS, Prisma, PlanetScale

github.com/mat2ja/fare

Qwiz @ TVZ Mc2 2022

February 2022 – June 2022

Platform for creation, organization & discovery of pub quizzes.

- Developed as a part of the TVZ Mc2 student programming competition
- Lead our team of three, designed the user interface, built most of the front-end, built out API endpoints and modeled the SQL database
- Built with Next, Nest, TypeScript, Mantine UI, React Query, Prisma, PlanetScale, NX

app.qwiz.party github.com/qwiz-app/qwiz

Aimo @ TVZ Mc2 2021

February 2022 – June 2022

Social media app connecting ambitious individuals with accountability partners.

- Developed as a part of the TVZ Mc2 student programming competition
- Won the First place, as well as the Best design award
- Managed the team, designed the user interface and built most of the client-side
- Built with Nuxt, Vue, Tailwind CSS and Google Firebase

About

Ambitious and competitive front-end oriented full-stack developer, with a special attention to detail and a keen eye for UI/UX design.

Constantly working on personal side projects and staying up to date with all the newest developments in this space.

Most passionate about building products, web design, clean code and bitcoin.

Hope to find a way to contribute to the open-source community in a meaningful way.
